2. Govt. has authorised vide G.L. at p. 18 ante, the C.E.B.E.G. to address the licensees, to be served under the South Gujarat Elec. Grid. Scheme, in the matter of trading relations reg. purchase and sale of power. Supply to Surat licensee is programmed to be commenced in Sept. 1952 and the C.E. therefore wants to finalise the trading relations with that licensee before the supply is commenced. While addressing him in this matter the C. E. has to indicate the Grid Tariff applicable to that licensee; but the tariff is yet to be approved by Govt. The C.E.s proposals reg. the tariffs for under the above scheme have been received recently and are being submitted separately. It may take some time before final orders are issued on the C.E.s proposals. As however the C.E. wants to finalise his trading relations with the Surat licensee urgently, especially in view of the reasons detailed in the concluding para. of his letter, he requests Govt. to authorise him to indicate in his communications with that licensee the tariff proposed by him (and still to be approved by Govt.) subject to confirmation or modification by you.

3. There seems no objection to approve his above proposal. The draft put up for approval may issue.

SEPARATOR

Very Urgent.

No.PL-9/30011

Electric Grid Offices,
Mercantile Bank Building,
Fort, Bombay,1.
13th December 1950.

To

The Secretary to Government,
Public Works Department,
Bombay.

Subs: Trading relation regarding purchase and sale of power under the Grid Schemes.

North Gujarat Electric Grid Scheme was based on purchase of power from the Sabarmati Power Station of the Ahmedabd Electricity Company in accordance with the basis laid down in the Electricity (Supply) Act, 1948. When this scheme was proposed, it was assumed that by the time the scheme comes into operation, the Electricity (Supply)Bill will have been enacted and Government would have set up the Electricity Board as provided in the Act. The Electricity (Supply) Act was enated in 1948 and it was expected that the Board would be formed by Government before the supply under the North Gujarat Grid Scheme commenced. Supply under this scheme is due to Commence very shortly but the Electricity Board has not yet been formed by Government.

2. The North Gujarat Grid Scheme was based on controlling the Sabarmati Power Station of the Ahmedabad Electricity Company, regulating its generation and supply and making the payments for energy purchased by the Board according to the provisions of the Act. However, as the Board is not yet formed, these provisons cannot be enforced except by mutual arrangements with the Company. The Ahmedabad Electricity Company has several times enquired about the payments to be made to them by the Grid Department for purchase of the required energy and they have been informed in the past that the payments would

be.....

be made in accordance with the 1948 Act. This statement was based on the assumption that Electricity Board would be formed in due course before the supply was commenced. The Company has again enquired on this point when two of their representatives saw in this office. It is therefore suggested that Government may authorise me to address the Ahmedabad Electricity Company that pending the formation of the Board, the trading relations between the Company and the Grid Department are proposed to be carried out in accordance with the relevant provisons of the 1948 Act as if the Board were in existance. In this connection, I may state that Government have written to the Satara Licensee on similar lines regarding the purchase of power from their power station for the Satara Taluka Village Electrification Scheme. The Satara Licensee has, however, not so far agreed to this proposal.

The proposals may be approved
Ild
14/12

2. Regarding supply of Grid power to the licensees operating in the North Gujarat area, viz., the Baroda, Nadiad, Anand, Kalal, Petlad and Dakor-Umreth licensees, supply to them is also proposed to be made in accordance with the relevant provisions of the 1948 Act. In this case also, I may be authorised to write to these licensees that power from the Grid will be supplied to them in accordance with the relevant provisions of the 1948 Act, as if the Board were inexistence. All these licensees are willing to take power from the Grid and they have made their arrangements accordingly. Normally, therefore, there would not be any necessity of enforcing section 36 of the 1948 Act regarding the closing down of their power stations as the licensees themselves would find it more economical to purchase Grid supply than to generate their own power. The supply of Grid power to these licensees is at present limited by the availability of power from the the Sabarmati Power Station. Accordingly, the Baroda licensee who requires more power than at present alloted to him, until the 'C' station at Ahmedabad comes into.

into operation, will require to operate his plant to supplement his power demands. Therefore, permission will have to be granted to him to operate his 50 cycles generating station which is newly installed.

4. For supply of power under the various Grid Schemes, Government have approved the standard forms of agreement to be entered into with the consumers. In the case of the licensees, however, it is not considered necessary to enter into any agreement as their supply to them would be governed by the Electricity (Supply) Act, 1948, the Indian Electricity Act, 1910 and the rules framed thereunder, and the conditions of supply of the Grid Department as approved by Government I may, therefore, be authorised to write to the licensees to be served under the Grid Schemes that supply will be made to them in accordance with the above acts and the rules etc., and the Grid tariff or the self-generation cost, whatever applicable, will be charged to them for the supply of power by the Grid Department. As the self-generation costs of the licensees in North Gujarat area would be higher than the Grid Tariff, all of them may be expected to accept supply under the Grid tariff.

5. I shall be obliged for the issue of orders of Government very urgently authorising me to address the Ahmedabad Electricity Company and the licensees of Baroda, Nadiad, Anand, Kalol, Petlad, and Dakor-Umreth, on the lines indicated above.

4th January 1951.

To

The Secretary to Government,

Public Works Department,BOMBAY.

Subject: Trading relations regarding purchase and sale of power under the Grid Schemes.

I invite a reference to this office letter No.PL-9/30011 dated 13th December 1950 and request that orders of Government may be issued very urgently, authorising me to address the Ahmedabad Electricity Co., and the licensees of Baroda,Nadiad,Anand,Kalol, Petlad and Dakor-Umreth on the lines indicated in the letter.

It.....

It is further requested that I may also be authorised in the same manner to address the Bulsar Electric Supply Co. regarding purchase of power in bulk from their station for supply to the Bulsar Taluka Village Electrification Scheme. Supply under this scheme is proposed to be commenced to some of the villages in about a forthight. The Bulsar Electric Supply Co. has been pressing for the terms on which power will be purchased from the power station. Government have already written to the Satara Electric Supply Co. that it is proposed to purchase power on the basis of 1948 Act as if the Electricity Board were in existance. It is the Government's intention to purchase power from Bulsar Licensee also in the same manner. However, without any authority from Government I cannot address the Bulsar Licensee accordingly. I therefore request Government to issue orders immediately in the matter.

Encl: 1 as above.

No.PLE-AD-1(A)2193,
Electric Grid Offices,
Mercantile Bank Building,Fort,
Bombay, 20th January,1951.

The Ahmedabad Electricity Co.Ltd.,
Ahmedabad.

Dear Sirs,

Sub: Purchase of power from the
Sabarmati Power Station.

As you are aware, the North Gujarat Scheme of this Department is expected to commence functioning by supply of power from your Sabarmati Power House to Baroda City in the course of the next few days. The question of the formation of the State Electricity Board is under the consideration of Government.

Pending the formation of the Board, the trading relations between the Grid Department and the Ahmedabad Electricity Co.Ltd., will be on the basis of the Electricity (Supply) Act of 1948 as if the Electricity Board were in existence. It has always been understood by you and this Department that this will be the case and that the power to be purchased by this Department from the Ahmedabad Electricity Co., Ltd., will be on the basis of the relevant provisions of the 1948 Act. It was on this understanding that you requested Government and Government agreed to give guarantee for one 15 MW Turbo alternator set in the 'B' Station and later for two such sets in the 'C' Station when you were asked by Government to provide additional generating capacity.

2. I shall thank you to let me have at your earliest convenience formal acceptance of the above arrangement.

Yours faithfully,

Sd/- P.B. Advani,

Electrical Commissioner with the
Government of Bombay.

The Electrical Commissioner with the Govt. of Bombay,
Electric Grid Offices,
Mercantile Bank Building,Fort, BOMBAY.

Dear Sir,

Purchase of Power from the
Sabarmati Power Station.

With reference to your letter dated 20th January 1951, Reference No.PLE-AD-1(A)/2193, and the subsequent discussion at your office on the 13th ultimo, we confirm our previous understanding set out in earlier demi-official correspondence with Mr.P. B. Advani to the effect that the trading relations between the North Gujarat Grid Department,Government of Bombay, and this Company will subject as below, be governed by the Principles set out in the First Schedule to the Electricity (Supply) Act,1948,as if the Electricity Board were in existence, unless otherwise agreed between us at some later date.

The above is subject to the condition that initially the Fourth 15 MW. Turbo-alternator set in 'B' Station Section, with associated Boiler Plant, auxiliaries, etc. (carrying all the capital cost properly attributable thereto) and later, in lieu of the fourth set in'B' Station, two 15 MW. Turbo-alternator sets in 'C' Station, with associated Boiler plant,auxiliaries,etc. (carrying all the capital cost properly attributed thereto) are to be treated as surplus to the Company's requirement although installed or on order as the case may be on or prior to the date of formal assumption of control by the State Electricity Board yet to be formed.

It.....

-2/10

It is understood that in the event of the North Gujarat Grid Department and the Company being unable to agree on any matters, such as the allocation of capital costs and standby capacity between themselves, these questions will be referred to arbitration.

Sub: Trading Relations with the licensees to be served under the South Gujarat Grid Scheme, the Jog-Karnatak Grid Scheme and the R.H.E.I. interconnected system.

The proposal made in this office letter No.PL-9/30011 dated 13-12-1950 in respect of the North Gujarat Electric Gird Scheme and in letter No.PL-9/363 dated 4-1-1951 for the Bulsar Taluka Village Electrification Scheme were approved under G.L. No.3488/48-El(1) dated 5-1-1951 and 20-1-1951 respectively.

2. For the same reasons as explained in the above letters, it is now requested that Government may kindly approve that the trading relations or the Grid Department with the licensees to be served under the South Gujarat Electric Grid Scheme a the Job Karnatak Electric Grid Scheme and from the R.H.E. - E. I. interconnected system should also be in accordance with the relevant provisons of the Electricity (Supply) Act. 1948, as...

as if the Electricity Board were in existence and that the licensees concerned be addressed accordingly by a letter by this department as done in the case of the North Gujarat Scheme.

3. As the supply to the Surat licensee under the South Gujarat Electric Grid Scheme is programmed to be commenced shortly, I have, in anticipation of Government approval, already addressed the licensee on the above lines stating that the proposals are subject to the approval of Government.

My above action may also be kindly approved. It is requested that orders of Government may be issued as early as possible.

Letter. Immediate

No. PLE-ST-i(A)/21897

Electric Grid Offices,

Mercantile Bank Building, Fort

Bombay 1, 25th July 1952.

Issued (with compliments) 30-7-52

To:

The Secretary to Government,

Public Works Department,

Bombay. ....

Subject:- South Gujarat Electric Grid Scheme-
Tr
Trading Relationship with Surat Licensee.

.....

Under the South Gujarat Electric Grid Scheme the Surat Licensee is proposed to be offered bulk supply in accordance with the second schedule to the Electricity (Supply) Act 1948 as proposed in this office letter No. PL-9/18939 dated 30-6-1952. The price to be paid by the licensee for the electricity supplied to him shall be at the Grid Tariff. Accordingly before the licensee accepts the Grid supply in accordance with the second schedule, he will obviously desire to know the Grid Tariff which is yet to be approved by Government. Consequently, the letter to the the Surat Licensee regarding trading relationship, mentioned in paragraph 3 of this office letter No.Pl*9/18939 dated 30-6-1952, has not been issued by me.

The rate for supply under the South Gujarat Electric Grid Scheme have been submitted to Government under this office letter No.PR-19/91053 dated 17-7-1952 and it will be sometime before they are finally approved by Government.

The.....

The supply to the Surat Licensee is programmed to be commenced in September 1952 and in order that the trading relationship with the licensee is finalised before the supply is actually commenced, it is suggested that I may be authorised while addressing the Surat Licensee about the proposed Grid supply under the second schedule to the 1948 Act, to indicate the Grid Tariff applicable to the licensee as proposed in this office letter No.PR-19/91053 dated 17-7-1952 with a proviso that it is subject to the approval of Government.

As already mentioned in this office letter No. PR-19/91058 dated 17-7-1952 the State Electricity Board is not yet formed and therefore the licensee cannot be asked to close down his station in accordance with the third schedule to the 1948 Act if he does not accept Grid supply under the second schedule as the difference in his self generation cost and the proposed Grid Tariff is marginal. It is probable that the licensee may not accept the supply at Grid Tariff and may negotiate for more favourable terms which may take sometime. It is, therefore, necessary to finalise the trading relationship with him before the supply is actually commenced, I shall be obliged for immediate orders of Government in the matter.
